Dear Prof. Hopkins,

I would like to express my full support for the application of Hamburg as host city for the ERS Congress 2029.

Prof. Christian Betz, current Scientific President of the European Rhinologic Society, and Dr. Anna Sophie Hoffmann, member of the Scientific Committee, have already been part of the organizing team of this year's congress in Budapest. They have both been involved in the German Rhinology Working Group for many years and Anna Sophie Hoffmann is currently the vice chair. The team in Hamburg is very experienced in organizing national and international scientific meetings. Hamburg is a perfect city for hosting international conferences with a congress center that is located in the heart of the city and with an international airport and a major railway connection it is easy to travel to for participants around the world.

It would be a great pleasure and honor to welcome the ERS congress back to Germany.

Best regards

Tanja Hildenbrand
German representative ERS Advisory Board
